

Dear Tourist,

Our philosophy structure is the key factor for saving electricity and for a sustainable tourism (we had been awarded from "Legambiente Association" one of the twelve best structures receptive from Italy in 2005).

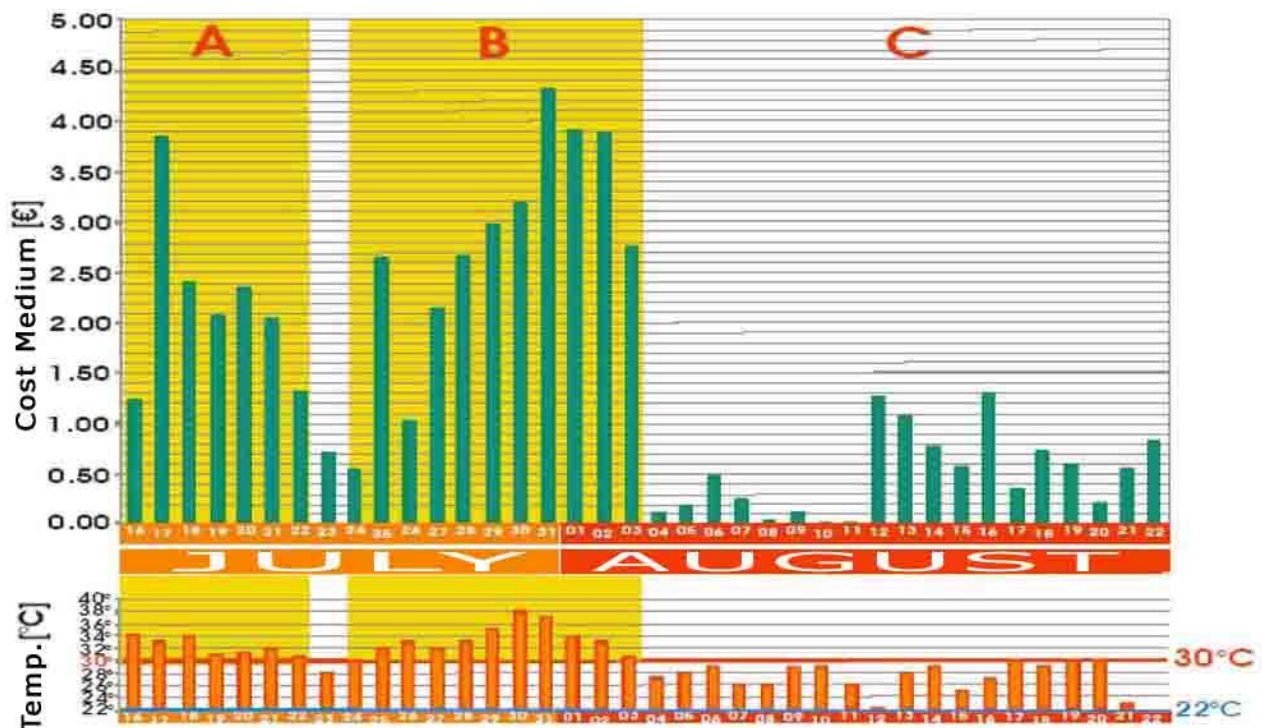

It stimulated us to install this software that debits to the clients only the time of the functioning of the air-condition, for letting them realizing for a sustainable saving electricity and responsabilizing the tourist for not wasting electricity, of interest of the Environment and for the tourist himself, that normally pays forfait in a similar structure at least from 25,00€ to 30,00€ per week.

On the monitor we effected that the hottest season of 2005 was in June and on the second 15 days of July ,it was cooler on August, It evidence that the most use daily it was 31 July, of the use medium low of 4,50€ per day. On the basic week it most it was 18,50€ at the end of July 2005, the least it was in August it was leved medium of 3,36€ per week.

The attention is for stimulating the tourist to not waste electricity, it's the well insulated, air-condition (Daikin with technology inverter) completing the whole frame of an excellent environment.

the Direction

Report Cost/Waste medium Air Conditioning Test period 38 days Summer 2005

PERIOD A

From 16 to 22 July

Average following on example of Bungalow of six people rented of the period indicated of the grafic Bungalows numbers 8,18,25,28,29,33.

	Costo	Durata Accens Cond*
Average Daily	• 2,16	1ora 48min
Average Max. Daily	• 3,83	3ore 11min
Average Min. Daily	• 1,21	1ora 5min
Average Weekly	• 15,20	12ore 36min

* They are assumed the actual minutes of the Split when is in using, excluding the automatic time of Standby.

PERIOD B

From 24 July to 03 August

Average following on example of Bungalow of six people rented of the period indicated of the grafic Bungalows numbers 4,5,6,8,15,16,18,19,20,22,23,25,26,28,29,30,32,33,34.

	Costo	Durata Accens Cond*
Average Daily	• 2,65	2ora 12min
Average Max. Daily	• 4,31	3ore 35min
Average Min. Daily	• 0,53	0ora 26min
Average Weekly	• 18,55	15ore 27min

* They are assumed the actual minutes of the Split when is in using, excluding the automatic time of Standby.

PERIOD C

From 4 to 22 August

Average following on example of Bungalow of six people rented of the period indicated of the grafic Bungalows numbers 6,8,15,20,22,25,26,29,30,32,33,34.

	Costo	Durata Accens Cond*
Average Daily	• 0,48	0ora 24min
Average Max. Daily	• 1,28	1ora 4min
Average Min. Daily	• 0,19	0ora 9min
Average Weekly	• 3,36	2ore 47min

* They are assumed the actual minutes of the Split when is in using, excluding the automatic time of Standby.
